March 2020 - CP116 Commission Statement

Pulse Insurance Limited works with a number of specialist insurers. Commission arrangements vary according to the type of cover required, the insurer and the term.

Most of our business is specialist life insurance, this generally pays 12.5% commission per annum for the duration of the policy. Commission is level throughout the duration of the policy thus a 10-year policy would have commission of 12.5% per year each year. The insurers who we work with who offer cover in Ireland do not pay initial commission. Commission is paid quarterly. Claw back does not apply.

Torquil McLusky
Managing Director

Pulse Insurance Limited
